RE: E5 Battery SMNSR-WR-000005-2020.003
2021 Annual Compliance Certification

Dear Administrator:

Please find enclosed the Annual Compliance Certification for Merit Energy Company's E5 Tank Battery as required by Synthetic Minor Permit SMNSR-WR-000005-2020.003. This report, which is certified by the responsible official, includes the monitoring and maintenance activities for the E5 Battery that occurred from January 1, 2021 through December 31, 2021.

Merit reviewed the facility specific permit conditions as outlined in the enclosed Table 1 to determine whether the facility was in compliance with these permit conditions. Based upon this review, the facility was in compliance for all items listed.

Certification of Truth, Accuracy, and Completeness by Responsible Official

Certification of Truth, Accuracy and Completeness

I certify under penalty of law that, based on information and belief formed after reasonable inquiry, the statements and information contained in this report are true, accurate and complete.
